

## Clark Forklift Part

Clark Forklift Parts - At present, there are at least 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive brands of lift trucks, with components covering more than 120,000 particular parts for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your parts requirements offered by Clark Totalift.

Clark features a phenomenal Parts Supply team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Worldwide, Clark has one of the most amazing dealer support networks. With over 550 locations globally, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional commitment to safety is currently a customary feature on every forklift.

Clark has a unrelenting goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a prevailing market position.

Clark has selected the extremely economical and advantageous system of "Lean Production" for its assembly facilities and application of resources. This structure was developed to acknowledge the most successful approaches of production facility stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The new value engineering program combines modern product improvement and offers superior consumer support and service within the industry.
