

## Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts along with other forklifts can have particular labels used in certain hazardous locations. The mark indicates that this particular model of forklift meets the minimum standards of ANSI/UL 553 used for electric forklifts or ANSI/UL 558 used for internal combustion engine forklifts.

Applications for labeled trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Areas or Use, Maintenance and Operation, and Type Designations. Ask your local insurance provider and Fire Marshall for further information regarding the approved uses of industrial powered forklifts in your application.

If the certain lift truck satisfies the outlined criteria, labels may be placed. A labeled lift truck will show the type of designation put on the nameplate and will have a correctly corresponding label placed.
